A young woman discovers a mysterious glowing doorway hidden inside an abandoned greenhouse at midnight. As she slowly opens it, thousands of luminous butterflies burst into the air, revealing a breathtaking floating garden above the clouds. She steps through the doorway as enormous flowers bloom beneath her feet, waterfalls flow upward into the sky,

and glowing islands drift through golden clouds. The camera follows her in one seamless cinematic movement, ending with a spectacular wide shot of the magical world stretching endlessly into the horizon. Create a single continuous 10-second ultra-realistic cinematic fantasy video with smooth transitions, intricate details, realistic lighting, natural movements, volumetric fog, breathtaking visual effects, and stunning 4K quality. Vertical 9:16 format. No dialogue, no text, no subtitles, no logos, and no watermark.
