Create an ultra-realistic Halloween horror video starring a beautiful young adult woman in a fitted black dress and black boots.
She walks through a haunted village at midnight, surrounded by glowing jack-o'-lanterns, twisted trees, and thick fog.
She discovers a giant black pumpkin beside an abandoned house and cautiously touches its surface.
Its eyes suddenly glow orange as every pumpkin around her turns toward her.
Black smoke erupts from the ground, and a terrifying pumpkin-headed monster rises behind her.
She turns around in terror and runs through the creepy pumpkin-lined pathway.
Bats swarm overhead, candles flicker, and ghostly shadows chase her through the fog.
She stumbles and discovers the enormous monster standing directly behind her.
The creature opens its jagged mouth and lunges toward the

camera for a terrifying jump scare.
Use cinematic tracking shots, realistic facial expressions, detailed pumpkins, dramatic orange lighting, and volumetric fog.
Maintain consistent character appearance, natural movement, escalating suspense, and AAA live-action horror realism.
No cartoon, anime, or stylized animation.
