No reference image: this prompt ran on its own.

Studio soft lighting from above and right, shallow depth of field, clean white marble surface, precise product composition, premium material rendering, bright and aspirational.

0s-5s: A sleek black gaming headset rests on a polished white marble surface. Camera slowly orbits at eye level. RGB light strips along the ear cups glow in a slow breathing pattern, casting soft colored reflections. Clean bright studio

environment visible in the background.

5s-10s: Camera pushes in to close-up on the ear cup. Brushed aluminum texture fills frame. RGB shifts from blue to purple, reflected in the metal surface. Fine detail of stitching on the cushion becomes visible.

10s-15s: Camera pulls back to a wide hero angle. A young man in a clean white t-shirt picks up the headset from the surface with both hands, puts it on, adjusts it, and smiles slightly. RGB glows against his face. He looks directly at camera.

Audio: soft electronic ambient tone, satisfying click when headset is placed on head.
Motion intensity: low. Duration: 15s.
