No reference image: this prompt ran on its own.

Epic wide-angle shot of a vast ancient battlefield at golden hour, thousands of warriors clashing with swords and shields under a hazy amber sky thick with smoke and ash. A lone archer in weathered bronze armor, face streaked with dirt, draws a longbow with deliberate tension. The arrow releases with a sharp twang.

Camera immediately snaps behind the arrow, tracking it in extreme slow motion as it cuts through drifting smoke and falling embers. Shallow depth of field keeps the arrow razor-sharp while the chaotic battlefield blurs behind. The camera pushes closer, tighter, until the wooden shaft fills the frame — revealing intricate carved runes and weathered grain.

Seamless transition to macro scale: the arrow's surface becomes a landscape. A microscopic civilization of tiny warriors the size of splinters wages war across the fletching.

Miniature catapults hurl fragments of dust. Warriors scale the carved runes like canyon walls. Torches flicker. Banners wave. All rendered with
