No reference image: this prompt ran on its own.

Shot on ALEXA 65mm anamorphic lens. Photorealistic cinematic quality. Aspect ratio 2.39:1 widescreen. Teal shadows, warm amber highlights. Film grain. Rain-soaked neon-lit night. Lens flares, motion blur. Dolby Vision HDR.

0.0s-3.0s:
Extreme low-angle tracking shot. Two girls face each other in a narrow neon-lit alley, rain pouring hard. One in a soaked leather jacket, the other standing calm, hair dripping, eyes locked. Water ripples across puddles between them. Camera slowly tracks backward as they step closer. One cracks her knuckles, the other tilts her head with a cold smirk.

3.0s-5.5s:
Whip-pan. First strike launches. TIME REMAP: slow motion as one swings, the other ducks and counters with a sharp punch. Water sprays through the air. Hair whips across faces. A kick lands, sending one sliding across wet pavement. Neon lights flicker, sparks falling.

5.5s-8.0s:
Drone shot overhead. They circle each other, movements precise. SLOW MOTION: rapid exchanges of kicks and blocks. One attempts a spinning strike, caught mid-motion and redirected. Reflections blur in the rain-soaked ground.

8.0s-11.0s:
360° orbital shot. One leaps forward with a spinning kick, the other blocks and counters instantly. Camera circles as they trade blows in rhythm. Breath visible in cold air. Expressions focused, intense, unshaken.

11.0s-15.0s:
First-person POV. One charges for the final exchange.
SMASH CUT: heavy hits in slow motion. Final strike connects clean.
Silence.
Rain continues falling.
Slow push-in. One girl stands steady, adjusting her sleeve, breathing controlled. The other remains down.
Low-angle shot. Eyes sharp, unwavering.

Style modifiers: cinematic fight choreography, rain-soaked photography, anamorphic lens distortion, realistic motion physics, expressive combat, dramatic lighting contrast, sound design driven pacing, professional stunt coordination aesthetic.
